The Janus Corner

Looking Back Looking Forward

I.E.Cock^{ab*}

Editor-In-Chief, Pharmacognosy Communications

^aBiomolecular and Physical Sciences, Nathan Campus, Griffith University, 170 Kessels Rd, Nathan, Brisbane, Queensland 4111, Australia.

This occasional section within the Journal surveys visions and achievements, often not on the main track of the developing biomedical sciences, but all relating to discoveries and developments of medicinals – both ancient and modern. What they have in common, in one way or another, is providing further background and glances around the edges of the core discipline of pharmacognosy, as it has been and continues to evolve within our times.

The Janus Corner (named after the god of beginnings and ends in Roman mythology) will encompass mini-biographies of some notable researches (and the people behind them), historical reflections and other archival surveys with significant pharmacognosy content, book reviews, article alerts, and whatever else, you – our readers – may consider important to pass on to fellow users of this journal.
