**Professor Chengzheng Sun**

***PhD (UvA), PhD (NUDT), MEng (ECICT), BEng (NEU)***

Dr Chengzheng Sun is a Professor (Chair of Internet Computing) in the School of Computing and Information Technology at Griffith University, Brisbane, Australia. He graduated in wireless telecommunication technology from North-East University (NEU), Shenyang, China, in 1976. He obtained the MPhil degree in computer engineering from East-China Institute of Computing Technology (ECICT), Shanghai, China in 1982. He worked as a lecturer in the Department of Computer Science and Technology at The University of Electronic Science and Technology of China, Chengdu (1983-1984). He obtained the Ph.D degree in computer engineering from National University of Defense Technology (NUDT), Changsha, China, in 1987. From Jan. 1988 to May 1993, he worked as a research scientist and a senior software engineer in University of Amsterdam (UvA), Philips Research

Labs Eindhoven and the ACE software company in Amsterdam, The Netherlands. He received the second Ph.D degree in computer science from University of Amsterdam, The Netherlands, in 1992. Since May 1993, he has been working with Griffith University. He is also an Adjunct Professor of Fudan University and Shanghai Jiaotong University (China).

Professor Sun's major areas of research interests and expertise include: Internet computing technologies and applications; collaborative computing systems and Computer-Supported Cooperative Work; distributed operating systems and computer networks; and parallel implementation of object-oriented and logic programming languages.

Professor Sun has authored/co-authored over 120 journal and conference papers, books and book chapters in his areas of research. He has been the leader and chief investigator of the REDUCE research program since 1994.
